

## Script for Shaving Tutorial:

N: If you've never shaved before, don't worry! Today I'm going to show you step by step how to do it.

N: There's a lot of different ways to shave. For the sake of simplicity, we are going to learn how to shave using a two-blade disposable razor.

N: For the first step, you will need to fill up your sink with water. (While the water is running, wet your face.)

N: Now, lather your shaving foam in your hands and apply it to your face.

N: Before you use your razor, swish it in the sink water.

N: For the first pass, shave with the grain of the hairs. And shave gently, let the razor do the work. Swish the razor through the sink water where appropriate.

N: Once you're done with the first pass, lather more shaving foam in your hands and apply it to your face again.

N: For the second pass, shave against the grain of the hairs.

N: Once you've finished the second pass, wash off the remaining shaving cream off of your face.

N: Now pat dry your face. Voilà! Thanks for watching!
